

# RULES FOR SUBMISSION

## ISCC - International Symposium of Contamination Control

20 to 23 of September 23, 2016

Convention Center Rebouças

São Paulo, Brazil

### CALL FOR PAPERS

SBCC - Brazilian Society for Contamination Control and ICCCS - International Confederation of Contamination Control Societies inform that, as of August 1, 2015, the call for papers will be open for the ISCCBRAZIL2016 - International Symposium on Contamination Control (International Symposium of Contamination Control). The entities invite all technical community, academic and professionals interested in the dissemination of knowledge in the area of Contamination Control and Cleanroom Technology to submit their papers to be presented at this event.

SBCC, founded 25 years ago, is dedicated to promoting scientific activities, continuing education and professional development programs for its members and technical-scientific community in Brazil, besides opening channels of communication with society in general. The organization is one of 17 national societies associated with ICCCS and for the first time, it will host the sector's world symposium, the ISCC, in September 2016.

The ISCC, which is organized every two years, is an opportunity for scientists, researchers and professionals to present the results of their work, new applications for contamination control and research. With lectures for specific and general segments and the display of products and services related to Contamination Control and Cleanroom Technology, the Symposium is the channel created by ICCCS and its domestic associated entities to meet the needs for updating the diversified application markets of this technology.

It is in the ISCC that professionals, whether beginners or experienced, have the opportunity to meet experts from all over the world and also users and suppliers, creating a broad interaction based on new technologies, applications and experiences that are not limited to traditional knowledge .

# RULES FOR SUBMISSION

## REGISTRATION

The deadline for registration with submission of abstracts will be 1 August 2015 to 31 December 2015.

For registration a summary of the work must be sent to be evaluated by the Technical Committee, that will confirm acceptance until 30 January 2016

### Rules for sending the summary:

1. Summary / abstract text: should be submitted in MS Word, Arial 12 font, A4 format, with up to 350 words in Portuguese or English languages only.

Send the Organizing Committee of ISCC 2016 by e-mail:  
**[papers@isccbrazil2016.com](mailto:papers@isccbrazil2016.com)**

Abstracts should be submitted with a brief resume of the presenter(s) with a maximum of 5 lines and the following information for contact:

- complete address
- E- mail
- Telephone
- cell phone

## SELECTION OF PAPERS

Authors who have their abstracts selected will receive, along with the confirmation of acceptance, a request to send the COMPLETE PAPER which shall be submitted to the Organizing Committee until April 31, 2016.

### Rules for submitting papers:

If selected, paper should be submitted as follows:

1. Text: must be submitted in MS Word, Arial 12 font , A4 format , up to 2,000 words, in Portuguese , Spanish or English languages.

A summary / abstract in English is mandatory.

2. Presentations must be done in MS Power Point, in the official form of the event. The number of slides should be limited so as to fit a 25-minute presentation or a 50-minute presentation; therefore, the suggested number of slides should not exceed 15 or 40 slides, respectively.

# RULES FOR SUBMISSION

Send the Organizing Committee of ISCCBRAZIL2016 by e-mail to:

**[papers@isccbrazil2016.com](mailto:papers@isccbrazil2016.com)**

Papers should be submitted with a brief resume of the presenter(s) with a maximum of 5 lines and the following information for contact:

- complete address
- E- mail
- Telephone
- cell phone

## FINAL CONFIRMATION

The final confirmation of acceptance of the work for presentation at ISCCBRAZIL2016 is scheduled for June 30, 2016 and will be made by e-mail to the authors. The confirmed papers will have the title and names of authors published on the SBCC and ICCCS site, in SBCC magazine and in the program and proceedings of the event.

## RATING CRITERIA

The Organizing Committee will evaluate the papers received and will make up the Congress grid at its sole discretion.

In the classification process certain points will receive special attention:

- Relevance of the work within the selected topic;
- Relevance of the reference sources and the author's familiarity with them;
- Quality of the findings and their practical applications;
- Innovation, creativity and attraction of public interest;
- Availability of time within the Congress grid.

## SYMPOSIUM THEME

The symposium theme is "Contamination Control and Cleanroom Technology"

The speakers are encouraged to address the following topics:

- Standards, Research and Development
- Filtration, Insulators and bio-containment

# RULES FOR SUBMISSION

- Microbiology and Biotechnology
- Metrology and Optics
- Projects, Energy Saving and Testing
- Failure Research and Standardization
- Innovations for Pharmaceutical Industry, Innovations for Hospitals and Health Services
- Automation and Robotics
- Microelectronics
- Commissioning , Qualification and Validation
- Surface Cleaning Rating
- Nanotechnology
- Separation Devices
- Micromechanics
- Operation and Maintenance of Systems for Clean Areas and Associated Controlled Environments.

## **PUBLIC**

Academic Community and Government

Professionals, representatives and public interested in the segments below:

- Food
- Aerospace
- Automotive
- Biotechnology
- Cosmetics
- Pharmaceutical
- Hospital
- Microelectronics
- Nanotechnology
- Health
- Veterinary
